

Assembling the Rear damper

Step 1:

Place the lowest **Rubber** on the **Damperpost**.

Step 2:

Slide a **Spring** over the **Damperpost**.

Step 3:

Slide a **Damper Ring** over the **Damperpost**, against the spring.

Step 4:

Then mount the **Damperplate**, and fill the inner surface with **Dampersyrup**.

Step 5:

Mount another **Damper Ring** and **Spring** over the **Damperpost**.

Step 6:

Fit the 2nd **Rubber** over the **Damperpost**, put a **Washer** on it and lock it with a **Plastic Clip**.

Step 7:

Flip both **Rubbers** over the edges of the **Damperplate**.
