NOTES:

No Sway Bar Kit. All washers are .030" unless otherwise specified. Heavy duty front arms. Holes reamed in the scoops of the body for extra cooling flow to motor. Ride height arms level all the way around. Direct shaft kit was used for full time 4wd for extra braking control. Shaft one-way is used on tracks with higher loamy grip. Front springs are cut AE truck silver fronts (total 6 coils)

1. For extra traction try using Racers Edge .5 or 1 degree hub carriers.
2. Weight was added to the right side of the chassis near the motor for better balance.
