 WET: _____
 DRY: _____
 SANDY: _____
 SOFT DIRT: _____
 GRASS: _____
 BLUE GROOVE: X
 CLAY: _____
 DUSY: _____
 OTHER: Track= sandpaper finish

NOTES:

Sway Bar kit installed. All washers are .030" unless otherwise specified. Heavy Duty front arms. Holes reamed in the scoops of the body for extra cooling flow to motor. Ride height arms level all the way around. Direct shaft kit was used for full time 4wd for extra braking control. Tip: Lower ride height when track has extra grip. Handout tires at the nationals was not an ideal balance. Matching thread patterns and or compounds is preferred at all times.

1. For extra traction try using Racers Edge .5 or 1 degree hub carriers.
2. Weight was added to the right side of the chassis near the motor for better balance.
