

AE ENGINE REPLACEMENT POLICY

If you are the original owner of an AE engine, Associated Electrics, Inc. will make a replacement engine available to you on an exchange, or trade in, basis.

You may trade in your old, worn-out, or broken AE engine along with a payment of half the current Manufacturer's Suggested Retail Price for a new AE engine.

This replacement policy will be in effect as long as Team Associated still offers this model of engine.

If your Team Associated dealer participates in our "Dealer Engine Exchange Program" you will be able to immediately exchange your AE engine along with a payment of half the current Manufacturer's Suggested Retail Price at the time of the exchange for a new AE engine of the same type directly from your dealer's stock. Have your dealer contact Team Associated at (714) 850-9342 for details of the "Dealer Engine Exchange Program."

Or you may send it directly to Team Associated. Send it prepaid UPS to:

**Associated Electrics, Inc.
Engine Service Dept.
3585 Cadillac Ave.
Costa Mesa, CA 92626**

We recommend using a shipper's tracking services. Associated is not responsible for any articles shipped to Associated lost in transit.

Send the following along with your engine:

- ☐ Payment, as indicated below (**no cash, please**).
- ☐ California sales will be charged sales tax of 7.75%.
- ☐ Shipping and handling of \$8.00.
- ☐ Completed Exchange Form, below. **Please print clearly.**
- ☐ Your old engine, by Prepaid UPS. **The old AE engine must be returned complete with crankcase, crankshaft, piston, sleeve, connecting rod, cylinder head, carburetor, and pull starter. The AE engine should not include clutch, flywheel, flywheel collet and nut, air cleaner, manifold, or pivot ball on the throttle arm.**

This form must be completely filled out by original owner, one form per engine exchanged
