Building off my 01 August 2021 setup -- increasing dampening A-gap +0.4 front/rear was faster, might go back to AE 50 or try MR33 650. Ran HRB (with body in same position as 2020) and BDL. Body was heavier La Leggera instead of Super Leggera  
 Tires gave up after 5/6 runs - and same setup on new tires (ran in Amain) pushed equally on entry/exit (14.8)  
 Post racing - swap to C27MMX+F hole improved center/exit steering and lowered laptime to \*14.6)
