

XRAY T4'15

COMMENTS

The diagram illustrates the weight distribution and suspension settings for two axle configurations. The central chassis is shown with various components labeled, including the top deck, flex, lower suspension block, and differential position. The weight distribution is indicated by the 'BALANCE /g' callouts, and the suspension settings are indicated by the 'LOWER SUSP. BLOCK' and 'DIFE. POSITION' callouts.

Configuration	Top Deck	Balance (g)	Flex	Lower Susp. Block	Dife. Position
2.0mm	2.0mm ☒	10	10	SOLID 1pcs ☒	UP ☒
1.6mm	1.6mm ☐	5	5	SINGLE 2pcs ☐	DOWN ☐
